ISSN: 3092-8648

Editorial Team

The Editor-in-Chief

Prof. Joseph Isabona,

Department of Physics, Federal University Lokoja

Members of the Editorial Board

Prof. Samuel.O Azi, Department of Physics, University of Benin

Prof. Kingsley Obahiagbon, Department of Computer Science, Benson Idahosa University, Benin

Prof. Divine.O. Ojuh, Department of Physical Science, Benson Idahosa University

Prof. Abraham. E.Ubhenin, Department of Biochemistry, Federal University, Lafia

Dr. Emmanuel Nwelih, Department of Computer Science, University of Benin, Benin

Dr.Ituabhor Odesanya, Department of Physics, Federal University Lokoja

Dr.Williams Ebhota, School of Mechanical Engineering, University of Kwazulu-Natal, South Africa

Editorial Assistant

Dr. Edith Edimo Joseph

Department of Psychology, University of Kwazulu-Natal, South

S/N	Manuscript Title	Page.No
1	Future Terrestrial Communication Links Attenuation Synthesis based on Crane and ITU Rain Models at Microwave and Millimeter-wave links Ugbeh R.N and J.Isabona	1-10
2	Rainfall Intensity Based Duration Curve Analysis with Bernard Model: Case Study in Lokoja City Environs Akhirevbulu, O.E	11-17
3	Integrated Method for Estimating Attenuation Upshot due to Atmospheric and Scintillation Factors in Satellite Communication Systems Joseph Isabona and Okiemute Roberts Omasheye	18-27
4	Quantification of Wet Antenna Attenuation Due to Rainfall Intensity on Cellular Microwave Communication Links Ikechi Risi and Ugbeh R.N	28-35
5	Machine Learning for Geophysical Modeling and Analysis: A Comprehensive Overview Akhirevbulu, O.E	36-42
6	Safest Banks: A Scientific Literature Review on Financial Stability and Risk Management Practices Emughedi Oghu	48-52
